

4 Courses

Natural Language Processing  
with Classification and Vector  
Spaces

Natural Language Processing  
with Probabilistic Models

Natural Language Processing  
with Sequence Models

Natural Language Processing  
with Attention Models

01.10.2020

**Maresh Kumar M R**

has successfully completed the online, non-credit Specialization

# Natural Language Processing

Congratulations! You have completed all four courses of Natural Language Processing - a deeplearning.ai Specialization. As part of this Specialization, you have learned the classical machine learning skills and the state-of-the-art deep learning techniques needed to build NLP systems. You are now equipped to design applications that perform question-answering and sentiment analysis, create tools to translate languages and summarize text, and build chatbots! These, and other NLP applications, are going to be at the forefront of the coming transformation to an AI-powered future.
